Accessing the Platform

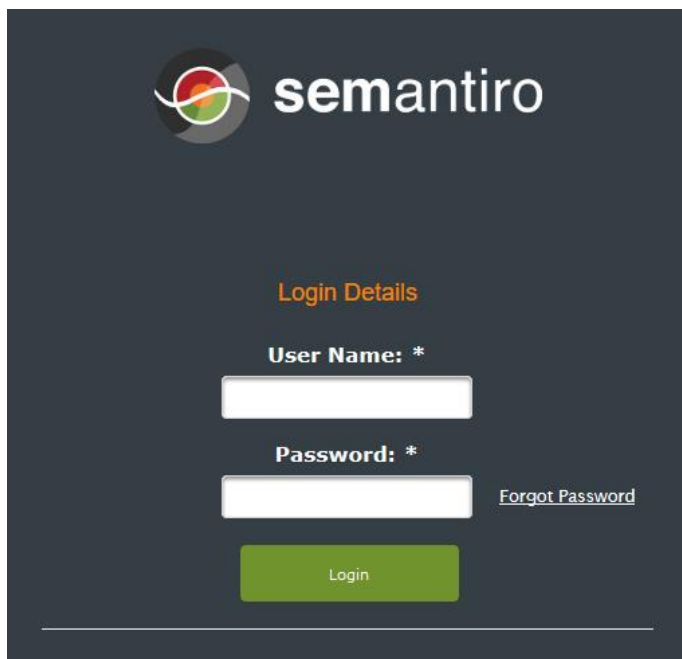

In order to use the Semantiro Platform, you will need to register for an account. Refer to our [Semantiro Registration Guide](#).

Logon Process

By registering through the Semantic Software portal, an account will be created for you. Your User Name and Password will be sent to you by email from support@semantiro.com.

You will be able to log in to the Semantiro platform at <https://www.semantiro.com> using these credentials.

You will be asked to key in your User Name and the password provided and you will be prompted to change the password to one you will remember, and you will be required to provide two security questions which will be used in the event you forget your password.

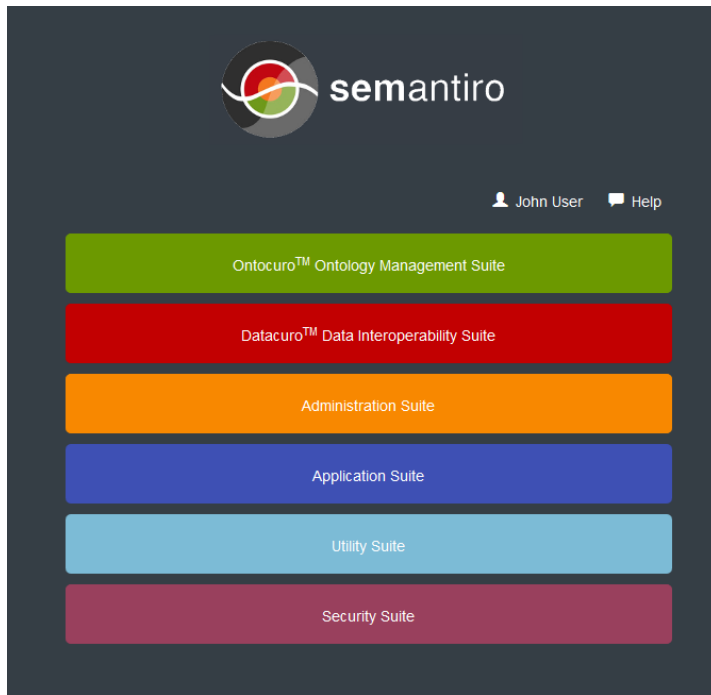

The image shows a dark-themed login form for Semantiro. At the top left is the Semantiro logo, which consists of a circular icon with red, green, and blue segments, followed by the word "semantiro" in white lowercase letters. Below the logo, the text "Login Details" is displayed in orange. The form contains two input fields: "User Name: *" and "Password: *", both in white text. The "User Name" field is a simple white rectangle, while the "Password" field is a white rectangle with a small eye icon on the right side. To the right of the password field is a link labeled "Forgot Password" in white text. Below the password field is a green button with the word "Login" in white text. A horizontal line is visible at the bottom of the form area.

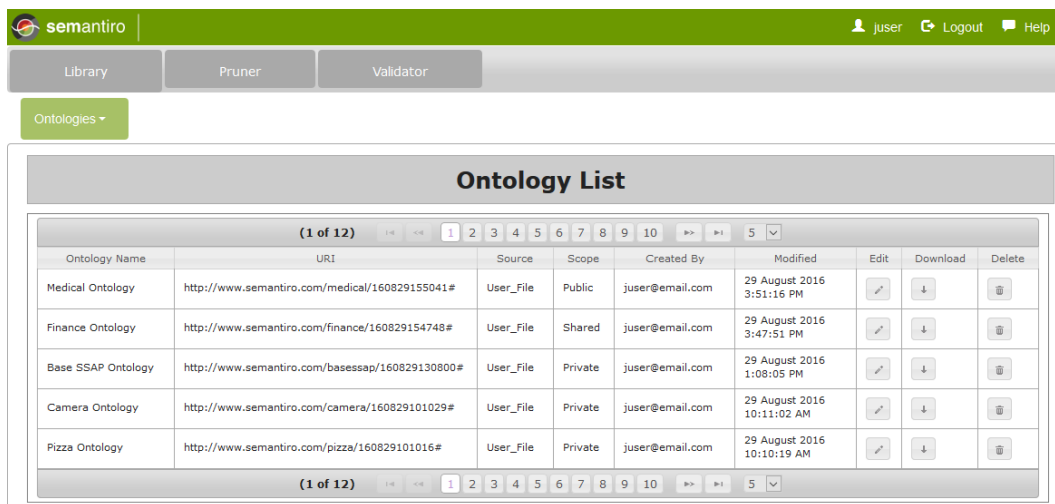

Working with Ontocuro

Accessing the Ontology Management Suite

After logging in with your account credentials, you will be presented with the Semantiro dashboard. From here, select Ontocuro™ Ontology Management Suite to access the Library, Pruner, and Validator.

Once you have selected Ontocuro™ Ontology Management Suite, you will be taken to the Ontology List page which lists all the ontologies available to you. From here you can select one of the three tabs along the top of the page, Library, Pruner, or Validator to get started.

Further Information

If you have any questions, refer to our [Semantiro FAQ](#). If your questions are not answered there, contact us at support@semantiro.com

For detailed instructions on how to use the Semantiro platform, refer to our [Semantiro User Guide](#)
